

DANCE FLOOR SIZING

How much dance floor will you need? It depends, but we hope this chart helps!

About 1 in 3 guests at an event will be on the dance floor at any given time

Please note that how much dance floor you need per person depends on the type of dancing you or your guests will be doing. The ratios and table presented here work best for slower, more compact dances at weddings and the like. If you're planning on swing, polkas, waltzes, etc., please don't expect to be able to fit the number of dancers in the table.

Size of Party	Number of dancers	Floor Dimensions (ft)
45-75	25	12x12
75-100	30	12x15
100-120	38	15x15
120-150	45	15x18
150-185	55	18x18
185-250	65	21x21
250-295	85	21x24
295-325	95	24x24
325-370	110	24x27
370-450	125	27x27
450-500	150	30x30
